

## 2020-21 School of Science and School of Business Application

**Name:** \_\_\_\_\_

**Date:** \_\_\_\_\_

The Rick Hansen School of Science and School of Business are elite level programs designed for students committed to the pursuit of a post-secondary education and interested in careers in one of those two respective areas. Each program is a blend of academic excellence, career exploration, international travel and a supported transition into post-secondary. This program has been co-designed in consultation with experts representing business and science both at the post-secondary and industry level. Your educational experience is about to be transformed!

To be accepted into the School of Science or the School of Business, you must be committed to academic excellence, involvement in extra-curricular activities (athletics and/or clubs) and be recommended by staff as possessing the aptitude to be successful in the program.

Please check which school you are applying for:

- School of Science  
 School of Business

Please list your career areas of interest:

Why do you want to attend the School of Business or the School of Science?

What clubs or sports teams have you been involved in at the school?

I will be taking the following language course next year:

- French 11
- Punjabi 11
- I will not be taking a language next year.

I will be applying to take the following courses outside of the timetable:

- Leadership
- Yearbook
- Band
